Extension Council

The Story County Extension Council is elected by the people of Story County. The Story County Extension Council, county staff, and ISU Extension and Outreach staff work together to provide research-based learning opportunities for our people. Through this partnership, we carry Iowa State University's land-grant mission across Story County.

Council Members

Buy. Eat. Live Healthy

Buy. Eat. Live Healthy supports individuals and families in making healthy choices on a tight grocery budget. Lessons focus on nutrition education, cooking skills, grocery budget management, and active living.

Intended audience: Adults or high school-aged students

Format: Eight-lesson series

Program availability varies by county.

[Explore additional details](#)

BUY EAT LIVE HEALTHY

"After learning about MyPlate I serve more fruit and vegetables on our menu. My family and I even have fruits as our snacks now. I love this new habit!"

Story County Participant

Story County Buy. Eat. Live Healthy Program

Individuals and Families with limited income are invited to meet with our Food and Nutrition Educator, Belinda Hoffman, for a *FREE* 8 week lesson series! Participants can meet in small groups or individual sessions. In the sessions, participants will practice cooking, meal planning, label reading, and physical activity to make healthy habits easier.

Lesson Topics Include:

- **Get Moving** - Families enjoy being active.
- **Plan, Shop, Save** - Families plan and shop for meals and snacks that are healthy and within their budget.
- **Fruits & Veggies: Half your Plate** - Families increase the amount of vegetables and fruits they eat every day to make half their plate fruits and vegetables.
- **Make Half your Grains Whole** - Families choose at least half of their grains as whole.
- **Go Lean with Protein** - Families select lean protein foods and keep all food safe to eat.
- **Build Strong Bones** - Families get enough calcium from low-fat or non-fat dairy foods or other foods high in calcium.
- **Make a Change and Celebrate!** - Families limit foods high in fat, sugar, and salt.

Text to be placed above the events in this block. Used for special announcements, ie COVID-19 cancellations

☐ Include Non-public Events

When checked, it will show all matching events, including events marked as not for the public

☐ Show Only Planned Programs

When checked, only show events that are in the list of planned programs. Skip the other lists

☐ Show Only Statewide/Campus/Multi-state Events

When checked, only show events that are Statewide, Campus, or Multi-state

Node Field Containing Program IDs

This field from the node is for when you want to limit events based on the Program IDs they are associated with. The field should be formatted

Program Area

Include All

If something is selected, then only show events for that program area

Limit By county

Adair

If something is selected, then only show events for that county

Placed on Page

Homepage

Documentation: what page(s) the block is placed on

☐ Show Events as Horizontal

When checked, events will be displayed horizontally as opposed to the default vertical list.

Modules

Salesforce Suite

View Version control

This suite of modules supports integration with [Salesforce](#) by synchronizing Drupal entities (E.g., users, nodes, files) with Salesforce objects (E.g., contacts, organizations, opportunities). It supports pushing Drupal data to Salesforce as well as pulling, or importing, Salesforce data into Drupal. Changes can be made in real time or asynchronously in batches during cron run.

★ 48

Installing

Get started with Salesforce [Quick Start guide](#)

Quick start (recommended install)

```
composer require drupal/salesforce drupal/salesforce_jwt drupal/salesforce_mapping drupal/salesforce_push drupal/salesforce_pull drupal/salesforce_mapping_ui
```

```
drush en salesforce salesforce_jwt salesforce_mapping salesforce_push salesforce_pull salesforce_mapping_ui -y
```

Requirements

Using composer to manage builds is strongly recommended. If you're not yet using a composer-based build, you will need to manually add the following packages (typically done via `composer require $package_name`):

Maintainers

aaronbaum
an

gcb

ironsizide

mariacha1

caxy4

wxactly
